Prescrire is published monthly by Association Mieux Prescrire, a non-profit association (N° 11 711 075) under the French law of 1901. EDITORIAL STAFF

Members of the Prescrire Editorial Staff publish a yearly declaration of absences of interest, in accordance with Prescrire’s "Non merci..." Charter. Members are free from any interest contrary to Association Mieux Prescrire’s objectives (the Charter and the Declaration are available online at en.prescrire.org).

Publishing reliable reviews that are easy to use and adapted to readers’ needs depends upon complex editorial procedures, involving the members of the editorial staff to ensure that all professionals involved in the work of the editorial staff define editorial goals. They oversee the literature search, the writing and revising of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire’s subscriber base...). They organize national and external quality controls, and edit the final copy. Every draft is submitted, before publication, to a large number of outside reviewers.

Details on how Prescrire’s content is produced are available online at the Prescrire in English website (en.prescrire.org) see the “About Prescrire” section, “How we work”.
