ASSOCIATION MIEUX PRESCRIRE

Prescrire International is a monthly journal of selected texts translated from Prescrire, the French journal of rational medicine, which is affiliated with the Association Mieux Prescrire. This organization, founded in 1981, is composed of physicians, pharmacists, and general practitioners. Members of the Prescrire Editorial Staff sign a yearly declaration of the French journal Prescrire. Prescrire International is a monthly journal of selected texts translated from Prescrire. Thirteen independent editorial teams, each involving a general practitioner, a pharmacist, a medical specialist, and a methodologist, assess and select the articles, which were first published in Prescrire. They organise internal and external quality control procedures, and every draft is submitted, before publication, to a panel of outside experts (medical specialists, methodologists, representatives of Prescrire's subscriber base...). They oversee the literature search, the writing and rewriting of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire's subscriber base...). They oversee the literature search, the writing and rewriting of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire's subscriber base...).

Details on how Prescrire's content is produced are available online in the Prescrire in English website (english.prescrire.org); see About Prescrire > How we work.
