Members of the Prescrire Editorial Staff sign a yearly declaration of interest. In accordance with Prescrire’s “Non merci...” Charter, Members are free from any interest contrary to Association Mieux Prescrire’s objectives (the Charter and the Declaration are available online at english.prescrire.org). Publishing reliable reviews that are easy to use and adapted to readers’ needs demands a profound complex editorial procedures, all initiated and overseen by the members of Prescrire’s Editorial Staff. Members of the Editorial Staff define editorial goals. They oversee the literature search, the writing and rewriting of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire’s subscriber base...).

They organise internal and external quality control procedures, and edit the final copy. Each draft is submitted, before publication, to a large number of outside experts.

Details on how Prescrire’s content is produced are available online at the Prescrire in English website (english.prescrire.org); see About Prescribe and How we work.

Prescrire is a founder and member of ISDB, a network of drug bulletins that are independent of drug companies, which aims to provide international exchange of quality information on drugs and therapeutics.
