Members of the Prescrire Editorial Staff sign a yearly declaration of absence of conflicts of interest, in accordance with Prescrire’s “Non merci...” Charter. Members are free from any interest contrary to Association Mieux Prescrire’s objectives (the Charter and the Declaration are available online at english.prescrire.org). Publishing reliable reviews that are easy to use and adapted to readers’ needs depends on quite complex editorial procedures, all initialed and overseen by the members of Prescrire’s Editorial Staff. Members of the Editorial Staff define editorial goals. They oversee the literature search, the writing and rewriting of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire’s subscriber base...). They organise internal and external quality control procedures, and edit the final copy. Every draft is submitted, before publication, to a large number of outside experts (medical specialists, methodologists, representatives of Prescrire’s subscriber base...).

Details on how Prescrire’s content is produced are available online in the Prescrire website (english.prescrire.org); see About Prescribe > How we work.
