Prescrire International is a monthly journal of selected texts translated from Prescrire, a peer-reviewed medical journal. Published by Association Mieux Prescrire, it is non-profit and its purpose is to promote patient care and quality healthcare. The editors are dedicated to ensuring the information is accurate and unbiased, aiming to empower patients and healthcare professionals. The content includes patient information, drug interactions, and medical updates, all reviewed by experts in their respective fields. The journal covers a wide range of medical topics, from general practices to specialized areas such as pharmacovigilance and health economics. The detailed credits list acknowledges the contributions of various professionals, including editorial committee members, translators, and commercial partners, all working together to ensure the highest quality of information. The website provides additional resources and contact information for those seeking to collaborate or contribute to the journal's mission.
