Publishing reliable reviews that are easy to use and adapted to readers’ needs depends upon complex editorial procedures as set out in the members of Prescrire's Editorial Staff. Members of the Editorial Staff define editorial goals. They oversee the literature search, the writing and rewriting of texts, and the review by a panel of outside experts (medical specialists, methodologists, representatives of Prescrire's subscriber base, ..). They organize national and external quality control procedures, and edit the final copy. Each draft is submitted, before publication, to a large number of outside reviewers.
